

Dear Entropians,

Many companies and organizations in various sectors, public and private, have shown interest over the years in leveraging the Entropia Universe platform to enhance their own business, products and services. Of course, MindArk is always eager to explore new opportunities and will soon be announcing the first such partnership project, separate from the existing Entropia Universe product. Full details will be made available on the MindArk.com website very soon.

Regards.

David Simmonds
